2. Start the **installation** process of the ZEROFAIL ONLINE BACKUPS application
3. **Select the files** you want to backup and set your backup schedule. Set and forget.

**All your data will be backed up automatically without human intervention**

#### Online backups save more than your Data...

When you use ZEROFAIL ONLINE BACKUPS you ensure that the future of your business will never be endangered by the loss of the critical data which drives your processes, productivity and success.

ZEROFAIL Online Backups provides automated, secure and remote online backups, plus data protection the way it should be: comprehensive, cost-effective, easy-to-use and headache-free.

Experience the security of knowing that your latest data and archived files are always available to you 24/7 from any Internet connection.

**50¢ per Gigabyte, 15 Gigabytes minimum.**

**No fuss, no nonsense policy!**

#### Facts about backups

- In North America alone, data loss and drive failure costs businesses over \$12 billion each year
- 60% of business who lose their data go belly up within the first 6 months. 90% of those that remain will fail within 2 years
- Only 30% of businesses have backups in place
- Over 70% of companies that didn't regularly test their backups found failures during restoration
- 80% of businesses who have backups in place do not store them offsite, thus are left unprotected against theft, fire, flood, acts of God and other catastrophes

# 7 reasons why ZEROFAIL Online Backups is better than what you have now

## 1 ZEROFAIL ONLINE BACKUPS is compatible with pretty much any OS you can throw at it

Windows 2000, XP, 2003, Vista, 2008, 7, MacOS, Linux, Novell, Solaris, AIX: ZEROFAIL Online Backups was developed for all of these Operating Systems.

This allows you to backup all of your systems, whether you are standardized on one platform or many, without the hassle of using multiple solutions.

## 2 Simple, pain-free installation & restoration processes

Installing the ZEROFAIL Online Backups application takes literally 4 clicks from start to full protection. Our Standard version comes preconfigured with default settings that allow the less tech-savvy to safekeep their precious data easily, while our Pro version will allow systems administrators the flexibility and customizability that they want.

For restoration, you can simply use the application already installed on your computer or server, or use a simple webportal to restore all your files to any computer or server.

## 3 Automated backup schedule. Simply set and forget.

Once the Backup application is installed on your computer, laptop or server, there is no need to monitor it. The backups are done regularly, as per the schedule you selected. It can be done monthly, weekly, daily, bi-daily, hourly or once every leap year, as you see fit.

Once your schedule is selected, you are assured that it will be done automatically, on-time, everytime, without human intervention. Reports of your successful backups are sent to you on a daily basis.

## 4 Keep data archived for as long as you want

You can select the retention period you are most comfortable with, whether it be 1 week, 1 month, 1 year or 7, you can choose any retention period that will allow you to safeguard your data in state of the art datacenters, throughout North-America.

## 5 No long-term contract

Why bind into a long-term contract? With ZEROFAIL Online Backups, it's month-to-month, because we believe that the security of your data should never be tied down. Our backup solutions are simple and user-friendly, the way it should be.

## 6 Scalable pay-per-GB storage

ZEROFAIL Online Backup is the only true pay-per-GB backup solution on the market. No quota, no block of storage, no charges for restoration, never pay for storage you do not use. Plus, our solution compresses your data up to a 3:1 ratio and removes duplicate files to minimize your cost.

**50¢ per Gigabyte. 15 Gigabytes minimum.**

## 7 Free 30-day trial period, no credit card needed

ZEROFAIL allows you to take its solution for a test run and see for yourself. No one should have to buy anything without getting to try it properly first. So what are you waiting for?
